Advising Handbook

2019/2020

Mark your Calendars!

Date	Event	Details
December 9, 2019	Summer Timetable Posted	See which classes will be offered over the summer term.
February-March, 2020	Academic Advising Season	Visit the King's Registrar's Office or your individual departments for one-on-one, personalized academic advice.
February 5, 2020 12:00-1:30pm	King's Advising Luncheon	Grab some lunch in Prince Hall with departments from the Faculty of Arts and Social Sciences and the Faculty of Science so you can talk about degrees, student experiences, classes offered and more! Day students can pick up a free lunch ticket at the door.
February 24, 2020	Summer Class Registration Opens	Get seats in the summer classes you want to take before they get snapped up!
February 27, 2020 11:00am-2:00pm	Dalhousie Program and Major Expo	Stop by the McInnes Room (Dal SUB) and speak with advisors from departments in the Faculty of Arts and Social Sciences, the Faculty of Science and the School of Journalism.
March 4, 2020	2020/2021 Timetable Released	Check out the course offerings from your favourite departments and plan your schedule.
March 5, 2020 4:00-5:30pm	CSP, EMSP & HOST Meet and Greet	Come to the Wilson Common Room to learn more about the King's upper year programs and to chat with current students and faculty.
March 16, 2020	2020/2021 Class Registration for BJH Students Opens	2020/21 class registration for BJH students opens.
March 17, 2020	2020/2021 Class Registration for BA, BSc, BMus students opens	2020/21 class registration for BA, BSc, BMus students opens. Check your DalOnline for the exact time that you can register at.

Definitions: Degree types

Credit hours vs. Credits

King's and Dalhousie use credit hours to weight courses and degrees. Credits may be familiar to you from other institutions, or appear in older resources. Below is a helpful conversion chart.

Three Credit Hours = normally a half year (one semester) course = Half Credit

Six Credit Hours = normally a full year course = One Credit

15 Credit Hours = normal maximum course load for one semester = Five Half Credits

30 Credit Hours = normal maximum course load for fall/winter (full year) = Five Credits

Note: In rare cases single semester courses may provide six credit hours in a single semester. Credit hours are clearly indicated on the Academic Timetable.

90 credit hour degree = 15 credit degree

120 credit hour degree = 20 credit degree

Degree

A course of study leading to an academic credential, e.g. a Bachelor of Arts degree (BA)

90 credit hour degree with a minor

A 90 credit hour degree with a minor is considered a “general” bachelor’s degree because it offers the least breadth and depth. It can be a good choice for students wishing to move quickly into the workforce, or who wish to do a professional program that requires some prior university work (e.g., Architecture, Pharmacy, and Social Work, among others).

120 credit hour degree with a major

The 120 credit hour major option provides a broad education in a particular field of study and is considered the “standard” undergraduate degree—it is often required for admission to further educational pursuits such as Education, Medicine, Dentistry, and Law.

Major

A student’s primary area of study, e.g. a Bachelor of Arts degree with a Major in English

Double major

You may be interested in the double major option if you have an equal or comparable interest in two disciplines. A double major is an optional 120 credit hour degree that provides a broad education in two major subjects.

Honours

A primary area of study that involves a higher level of specialization than a major. An honours degree is usually required for admission to graduate programs (e.g., master's and doctoral degrees) because of the depth of study, the minimum GPA, and the fourth-year research project or seminar (honours essay). This 120 credit hour degree option provides a broad education and allows students to develop extensive knowledge in the honours subject. You must apply through the department and meet the academic eligibility requirements set by the faculty and the department.

Combined honours

You may be interested in the combined honours option if you have an equal or comparable interest in two disciplines. This is an optional 120 credit hour degree that provides a broad education and allows students to develop extensive knowledge in two honours subjects. If you are interested in pursuing graduate studies, check the graduate programs to ensure a combined honours degree will give you sufficient background. You must apply through the department and meet the academic eligibility requirements set by the faculty and the department.

Minors

An area of secondary concentration. Many minor programs are available to students in the Faculty of Arts and Social Sciences, the Faculty of Science and the School of Journalism. You may be interested in adding a minor to your degree if you prefer a greater academic focus and a broader intellectual experience than simply taking a wide range of electives. The minor also gives you a way to explore a subject area without committing yourself to a full major. For example, a student could pursue a Bachelor of Science degree with a Major in Psychology and a Minor in Contemporary Studies.

Co-operative Education

Some degree programs offer co-operative education, combining classroom learning with on-the-job training experiences. Co-op programs can help you make connections with employers and will allow you to make money while you learn. In some programs co-op is mandatory, where in some other disciplines it is available as an option.

Certificate

Certificates vary in their goals and requirements. They offer a qualification that recognizes graduating students have achieved a level of proficiency or specialization in a particular area or subject.

Section 1: Arm Yourself with Information

“What’s Next?” As you make your way through university, it’s time to start thinking about what’s next. What type of degree would you like to pursue? Will it be an honours degree? What is an honours degree? Considering these questions can be daunting but there are resources available to help you with these decisions. Here are some helpful definitions before you get started...

Auditing a course: Auditing a course means you can attend it, but are not responsible for any of the work completed. You do not receive any credit, or a grade, for the course. Normally you pay half the standard tuition amount to audit a course. The course would appear on your transcript with the notation ‘AUD’, showing that you audited it, but no credit or grade was assigned.

Credit hours: Credit hours normally represent the number of hours spent in the lecture portion of a course. In a single semester course (3 credit hours) you normally spend 3 hours in the course per week for one term. In a full year, X/Y, course (6 credit hours), you still spend 3 hours in the course per week, but you do this for two terms (Fall/Winter). Some six credit hour courses happen in one term. When that happens, six hours are spent in the course per week.

Credit/half-credit: A full credit is worth 6 credit hours and is usually a full year (X/Y) course. A half credit is worth 3 credit hours and normally takes place in a single term (Fall or Winter) only.

CRN: This stands for Course Registration Number, and is like the ID number for the course. Every course in the timetable has a CRN attached to it. When you register for courses you will use the CRNs.

Cross listed courses: A cross-listed course can count for credit in one of two or more departments. Cross-listings are listed in the academic calendar and the timetable online. If you switch your major and want the course to count for something other than what you registered for, your degree audit can count it as whatever is most advantageous to you. The course will not change on your record. Cross-listed courses can only count as one subject at a time and one specific degree requirement at a time.

Degree requirement: Each degree has general and specific degree requirements. A general degree requirement is something that applies to all students within a faculty, such as the Faculty of Arts, Science, or School of Journalism. A specific degree requirement is one that would only apply to students pursuing a major in the discipline. For example, a student pursuing a Bachelor of Arts in History would have general degree requirements for a Bachelor of Arts as well as specific degree requirements for History.

Elective: An elective is a course that is not specifically required for your degree but you may want to take it because the subject matter interests you. Almost all degrees have space for some electives. Consult the calendar online at www.ukings.ca, or visit the Registrar’s Office to figure out how many electives you have in your degree program.

Exclusion: An exclusion is when one course is close enough in content to another course that you can only get credit for one of them – even if you take both. For example, ENGL 1000 (Intro to Literature) carries an exclusion with ENGL 1010 (Intro to Prose and Fiction) and ENGL 1020 (Intro to Poetry and Drama).

Faculty: Departments (such as English, History, and Theatre) are grouped into divisions called Faculties. King’s students in BA programs belong to the Faculty of Arts and Social Sciences (FASS); BSc students belong to the Faculty of Science (FoS); Journalism students are part of the School of Journalism.

Full course load: A full course load is 15 credit hours (five half credits) in a single term (Fall or Winter terms). A full course load is not synonymous with being a “full-time” student.

Full time/part-time student: In order to be considered a full-time student you must be registered in at least 9 credit hours in both the Fall and Winter terms. In Arts, Science and Journalism, this is 18 credit hours for the year. Some external organizations, such as those who provide scholarships, bursaries or RESPs have different requirements for full-time status. Please be aware of your requirements. Generally, anything less than 60% of a full course load for the year would make you a part-time student. However, some students are eligible for full-time status based on a 40% course load for reasons of documented academic accommodation.

Prerequisite: A prerequisite is a course you must take in order to take another (often higher level) course. The prerequisite course gives you the background you need to pursue further study in the area. For example, you must take first year Psychology before you can take second year Psychology courses.

Thesis: A thesis normally takes the form of a long paper. It can fulfill the honours component of an honours or combined honours degree. Some departments offer a senior level research-oriented course in lieu of a thesis.

Transfer credits: If you have IB or AP credits from high school or have completed any credits at another post-secondary institution, you may be eligible for transfer credits. AP courses with a grade of 4 or 5, or Higher Level IB courses with a grade of 5, 6 or 7 can be considered. Transfer credits are typically granted when you are admitted which means they may already be on your academic record. You can access your academic record through Dal Online. If you did not receive transfer credits and think you should have, please contact the Assistant Registrar, Admissions for assistance.

FYP Explained: What does FYP mean after first year?

As a Bachelor of Arts, Bachelor of Journalism (Honours) or Bachelor of Music student:

Students in these degree programs who complete FYP earn 24 credit hours.

Students who finish the program can move directly into second year courses in most programs within the Faculty of Arts and Social Sciences. There are a few programs that require the completion of the first year content in that subject before second year courses can be taken, such as Sustainability, Psychology, and many Science subjects. Please consult the Academic Calendar for a complete list of degree requirements by program.

If you are unsure if you can enter a class, check the description of upper year courses to see if FYP counts as an appropriate prerequisite course.

As a Bachelor of Science student:

Students in BSc degree programs who complete FYP earn 18 credit hours.

Students who finish the program with a grade of B- or higher can move directly into second year courses in most programs within the Faculty of Arts and Social Sciences. Most Faculty of Science subjects will require the completion of the first year content before second year courses can be taken. Please consult the Academic Calendar for a complete list of degree requirements by program.

If you are unsure if you can enter a class, check the description of upper year courses to see if FYP counts as an appropriate prerequisite course.

General Degree Requirements

Within every degree program, you must complete **general degree requirements** and **program specific requirements**. If you are pursuing a BA or a BSc, and are taking Foundation Year Program (FYP), it has satisfied **three** of your five general degree requirements.

NOTE: Students may take a maximum of 48 credit hours at the 1000-level

For a BA, the general degree requirements are:

Six Credit Hours in:

- **Language/humanities**
- **Social science**
- **Writing course(s)**
- Language (other than English) OR six credit hours in MATH/STAT for certain majors
- Life/physical science

For FYP students the first three requirements are satisfied by FYP.

FYP students will need six credit hours in a language and 6 credit hours in a life/physical science.

Non-FYP students will need to complete six credit hours in each of these areas.

The writing course may also satisfy the language/humanities or social science requirements.

***See General Degree Requirements under College of Arts and Science in the Academic Calendar for details on approved subjects and/or courses for each requirement.**

For a BSc, the general degree requirements are:

Six Credit Hours in:

- **Language/humanities**
- **Social science**
- **Writing course(s)**
- Math course(s)
- Life/physical science

For FYP students the first three requirements are satisfied by FYP.

FYP students will need six credit hours in math and 6 credit hours in a life/physical science. This is typically satisfied in part by taking the first year required courses for the subject of your choice

Non-FYP students will need six credit hours in each of these areas.

The writing course may also satisfy the language/humanities or social science requirements.

***See General Degree Requirements under College of Arts and Science in the Academic Calendar for details on approved subjects and/or courses for each requirement.**

For students in the BJH program, there is only 1 general degree requirement:

One six credit hour (full year) course or two 3 credit hour (half year) courses selected from the list of approved Canadian Content Courses. See the King's Academic Calendar at www.ukings.ca for a list of approved courses.

The BJH is a 123 credit hour degree, meaning that you need to take an extra 3 credit hour course at some point during your studies to graduate. This can be during a semester or over the summer.

Degree Requirements When Focusing on a Single Subject

Legend:

- - Represents a 6 credit hour course taken in your primary area of concentration.
- - Represents a 6 credit hour course taken as an elective and/or general degree requirement. May also be used toward the fulfillment of a minor (120 credit hour degrees only) see pg. 14.

90 Credit Hour with Minor – BA or BSc

In this degree program, you complete at least 18 credit hours of your last 60 credit hours (years 2 and 3) in your area of concentration.

120 Credit Hour Major – BA or BSc

In this degree program, you complete at least 30 credit hours of your last 90 credit hours (years 2, 3 and 4) in your area of concentration.

120 Credit Hour Single Honours – BA or BSc*

In this degree program, you complete at least 54 credit hours of your last 90 credit hours (years 2, 3, and 4) in your area of concentration.

NOTE: The outlines provided here are general overviews of the most commonly selected degree options. Some programs require additional credits. Please review the requirements specified in the Dalhousie/ King's Academic Calendars and meet with the undergraduate advisor(s) for your program to verify that you are completing the correct degree requirements.

Degree Requirements When Combining Two Subjects

Legend:

- - Represents a 6 credit hour course taken in your primary area of concentration.
- - Represents a 6 credit hour course taken in your secondary area of concentration.
- - Represents a 6 credit hour course taken as an elective and/or general degree requirement. May also be used toward the fulfillment of a minor (120 credit hour degrees only) see pg. 14.

120 Credit Hour Double Major – BA or BSc

In this degree program, you complete at least 60 credit hours of your last 90 credit hours (years 2, 3 and 4) in your two areas of concentration. Students are required to complete 30 credit hours in their primary area of concentration and 30 credit hours in their secondary.

120 Credit Hour Combined Honours* – BA, BSc or BJH

In this degree program, you complete a minimum of 66 credit hours of your last 90 credit hours (years 2, 3 and 4) in two areas of concentration. Students are required to complete 36 credit hours in their primary area of concentration and 30 credit hours in their secondary though some may need to do more than 66 credit hours, depending on the subjects.

If you are doing a degree in the **History of Science and Technology Program as a Bachelor of Science student**, you may complete 42 credit hours in your science subject and 24 credit hours in History of Science and Technology with permission from both honours advisors.

***Important!** If you plan to pursue an Honours Degree, you must complete an Honours Application, available at the King's Registrar's Office or online. Honours forms are due by the September add/drop date of the student's final year of study. We strongly encourage students to meet with departmental advisors as early as possible for degree advising and to determine when they should submit an honours form.

Choosing a Subject

You might be thinking, ‘There are so many options! How can I choose?’ It’s okay to feel a little overwhelmed by the degree choices and combinations available to you. Think about your academic strengths and interests, browse the course listings, talk to professors and tutors, and seek out students in the programs you are interested in.

As a King’s student you can carry your degree in any one (unless otherwise mentioned) or two of the following Arts or Science subjects. If you are a BJH student you can do a combined honours degree in Journalism and most of these subjects. You should always check the Academic Calendar (available at www.ukings.ca) to confirm degree combinations.

Faculty of Arts & Social Sciences subjects

- Canadian Studies (*combined degrees only*)
- Cinema and Media Studies
- Classics
- Contemporary Studies (*combined honours or minor*)
- Creative Writing (*combined degrees as secondary subject*)
- Early Modern Studies (*combined honours or minor*)
- English
- European Studies (*single major or honours*)
- French
- Gender and Women’s Studies
- German
- History
- History of Science & Technology (*combined honours or minor*)
- International Development Studies
- Law, Justice and Society
- Music
- Philosophy
- Political Science
- Religious Studies
- Russian Studies
- Sociology and Social Anthropology
- Spanish
- Theatre

Faculty of Science subjects

- Actuarial Science
- Biochemistry & Molecular Biology
- Biology
- Chemistry
- Earth Sciences
- Economics
- Environmental Science
- Environment, Sustainability and Society
- Marine Biology
- Mathematics
- Microbiology & Immunology
- Neuroscience
- Ocean Sciences
- Physics & Atmospheric Science
- Psychology
- Statistics

Minors and Certificates

A minor can be completed with a major, a double major or a single honours and is required for the 90 credit hour degree option. The university will also award a minor with a combined honours degree, provided the student fulfills all requirements. This may require the completion of more than 120 credit hours depending on the chosen minor.

Minor programs must have a minimum of 18 credit hours beyond the 1000-level. Minors within the Faculty of Arts and Social Sciences may contain up to 27 credit hours while minors within the Faculty of Science may contain up to 36 credit hours. These maximum values depend on the minor's faculty, NOT on the student's faculty.

For a breakdown of the specific requirements needed to complete a minor, please consult the degree requirements section of the Academic Calendar or visit the Registrar's Office. The requirements for minoring in a King's subject are as follows:

Contemporary Studies

1. Any one (1) of the following core courses: CTMP 2000.06 (OR CTMP 2001.03&2002.03), CTMP 3000.06 (OR CTMP 3001.03&3002.03), CTMP 4000.06 (OR CTMP 4001.03&4002.03)
AND
2. 12 credit hours selected from CTMP courses. Of these, at least 6 credit hours must be taken at the 3000 level or above. (CTMP 3000.06 or CTMP 3001.03 & 3002.03 OR CTMP 4000.06 or CTMP 4001.03 & 4002.03 can satisfy this requirement.)

Early Modern Studies

1. Any one (1) of the following core courses: EMSP 2000.06 (OR EMSP 2001.03&2002.03), EMSP 3000.06 (OR EMSP 3001.03&3002.03), EMSP 4000.06 (OR EMSP 4001.03&4002.03).
AND
2. 12 credit hours selected from EMSP courses. Of these, at least 6 credit hours must be taken at the 3000 level or above. (EMSP 3000.06 or EMSP 3001.03&3002.03 OR 4000.06 or EMSP 4001.03&4002.03 can satisfy this requirement.)

History of Science and Technology

1. Six credit hours from the following courses: HSTC 2001.03, HSTC 2200.06, HSTC 3001.03, HSTC 4001.03
AND
2. 12 credit hours selected from HSTC courses. Of these, at least 6 credit hours must be taken at the 3000 level or above. (Taking HSTC 3001.03 and HSTC 4001.03 will satisfy this requirement.)

Minors and Certificates

Minor in Journalism Studies

Faculty of Arts

1. Students must complete two core courses (JOUR 1001.06 Foundations of Journalism and JOUR 2700.03 Introduction to Reporting)

AND

2. Students must complete 15 credit hours of Journalism electives.

Faculty of Science

1. Students must complete three core courses (JOUR 1001.06 Foundations of Journalism, JOUR 2700.03 Introduction to Reporting, and JOUR 2400.03 Science and the Media)

AND

2. Students must complete 12 credit hours of Journalism electives.

Certificates

A certificate is for courses taken in a specific subject area. Each certificate has its own specific requirements. You should consult the academic calendar or the department if you are interested in pursuing a certificate. The following is a list of **some** of the certificates available, **please consult the academic calendar for a full list of available certificates.**

Certificates available:

- Certificate in Actuarial and Financial Mathematics (Math and Statistics students only)
- Certificate in Animal Behaviour
- Certificate in Art History and Visual Culture
- Certificate in Applied and Computational Mathematics (Math students only)
- Certificate in Environmental Impact Assessment (EIA)
- Certificate in Geographic Information Science (GIS)
- Certificate in Indigenous Studies
- Certificate in Information Technology (some BSc degrees)
- Certificate in Intercultural Communication
- Certificate in Medicinal Chemistry
- Certificate in Materials Science
- Certificate in Science Leadership and Communication

Section 2: Academic Regulations to Keep in Mind

A common misconception is if you pass all of your courses, you are in good academic standing. This isn't quite true. Here are some important things to know about academic standing:

What does GPA Mean?	Grade.	Grade Point Value
GPA stands for Grade Point Average. It is the numeric representation of the letter grades you earn in your courses. Your Term GPA is an average of the courses you have taken in a single term's courses. Your Cumulative GPA is an average of all the courses you've taken in your level of study.	A+	4.30
	A	4.00
	A-	3.70
	B+	3.30
	B	3.00
	B-	2.70
	C+	2.30
	C	2.00
	C-	1.70
	D	1.00
	F	0.00
	INC (Incomplete)	0.00

W (Withdrawal)	Neutral
ILL (did not complete due to illness)	Neutral

Good Academic Standing

Bachelor of Arts and Bachelor of Science students need to maintain a 2.00 GPA (C) average to be in good academic standing. Bachelor of Journalism (Honours) students must maintain a 2.70 (B-) average. This requirement is higher because it is an honours degree. Standing is assessed after you have completed 24 credit hours and assessed per term for every term following.

Academic Probation for Arts and Science Students

Students with a cumulative GPA lower than 2.00 GPA (C), but greater than or equal to 1.70 GPA (C-), who have completed at least 24 credit hours will be placed on academic probation. Students on probation may continue to register for courses as long as their term GPA is at least 2.00 (C). A student on probation who does not achieve a term GPA of at least 2.00 will be academically dismissed. A student on probation must achieve a cumulative GPA of 2.00 to return to "good standing."

Academic Probation for Journalism Students

Since the BJH program is an honours degree, students who have completed at least 24 credit hours will be placed on probation if their cumulative GPA drops below B- (2.70), but is greater than or equal to 2.30 (C+). Students on probation may continue to register as long as their term GPA is at least 2.50.

A student on probation who does not achieve a term GPA of at least 2.50 will be academically dismissed.

A student on probation must achieve a cumulative GPA of 2.70 to return to “good standing.”

Academic Dismissal for Arts and Science Students

Students with a cumulative GPA lower than 1.70 (C-) who have completed at least 24 credit hours will be academically dismissed for a 12-month period.

Students who are academically dismissed for the first time may apply for readmission after an absence of 12 months. They will be permitted to register on probation.

Students who are academically dismissed for the second time are not usually permitted to reapply for three years.

Academic Dismissal for Journalism Students

Students with a cumulative GPA lower than 2.30 (C+) who have completed at least 24 credit hours will be academically dismissed for a 12-month period.

Students who are academically dismissed for the first time may apply for readmission after an absence of 12 months. They will be permitted to register on probation.

If your GPA is 2.0 or higher you may apply to the Bachelor of Arts degree.

Students who are academically dismissed for the second time are not usually permitted to reapply for three years.

Degree Requirements by Year

It is important to know your degree requirements are tied to the year you started your degree. If you began a Bachelor of Arts at King's in the 2019/2020 academic year, you should refer to that year's academic calendar when researching your degree requirements. This is for your protection. If you are majoring in English, for example, and the English department changes its degree requirements in 2019/2020, these new requirements will not apply to you. That said, if it is to your advantage, you can request to follow a newer set of requirements, by emailing degreeaudit@dal.ca.

In the School of Journalism, degree changes may take effect in the calendar year they were introduced. Students who experience undue hardship because of this may apply to the Journalism Committee on Studies for relief.

Credit Hours at the 1000-level

The maximum number of credit hours a student may take at the 1000-level is 48. You are permitted to register for more but they will not count toward the 120 credit hours you need to graduate.

Distribution Requirements

Bachelor of Arts degrees have a little-known requirement that we refer to in this publication as the Distribution Requirement. This means that after your first year, you need to take a certain number of courses in subjects outside your area(s) of concentration.

- 90 Credit Hour Minor – In the last 60 credit hours, complete 6 credit hours in each of two (2) subjects other than the minor.
- Major – In the last 90 credit hours, complete 6 credit hours in each of two (2) subjects other than the major.
- Double Major – In the last 90 credit hours, complete 6 credit hours in a subject other than the two major subjects.
- Single Honours– In the last 90 credit hours, complete 6 credit hours in each of two subjects other than the major.
- Combined Honours – No distribution requirement.
- Bachelor of Journalism and Bachelor of Science degrees do not have a distribution requirement.

Outside Electives

Another little-known but important piece of information for Bachelor of Arts and Bachelor of Science degrees is there is a limit on how many elective courses you can take from outside the Faculties of Arts and Social Science or Science (unless you are completing a minor in the subject). For outside electives, students may take:

- 18 credit hours from courses offered in other faculties

OR

- 18 credit hours from courses offered in other faculties and 12 credit hours in Commerce

OR

- 24 credit hours in Commerce

Repeating a Course

You are permitted to repeat a course if you fail or if you pass but would like to earn a higher grade. When you repeat a course, the first grade does not disappear from your record. There is no way to ‘erase’ the lower mark from your permanent record, but only the highest grade will count toward your GPA. You can only receive credit for the course once. If the course is failed twice, only the first instance counts in the student’s GPA.

Understanding Plagiarism

Plagiarism, defined as “the submission or presentation of the work of another as if it were one’s own,” is a serious academic offence that can result in a failing grade, suspension or expulsion from the university.

Please visit Dalhousie’s page on academic integrity (<http://academicintegrity.dal.ca/>) to learn more about plagiarism, paraphrasing, citing, discipline, penalties and services available to students to help them avoid accidentally plagiarizing someone else’s work.

Dropping Courses vs. Non-Attendance

Failing to attend a course **does not** constitute withdrawal. If you intend to drop a course, make sure you withdraw through your Dal Online account or by visiting the Registrar’s Office. If you intend to withdraw from FYP you should **only** do this by visiting the Registrar’s Office.

If you do not officially drop a course, you will be charged tuition fees and will also receive a grade for the course.

Grades of W

At a certain point in the year, withdrawing from a course means you will receive a grade of W (Withdraw) on your record. The W indicates you withdrew from the course. It has no impact on your GPA as it is a neutral grade.

The last day to drop a half-year course with a grade of W is usually at the end of October / start of November (for Fall courses) and March (for Winter courses). The last day to drop a full-year course with a W is usually in early February. After the cutoff dates, it is no longer possible to withdraw and you will have to carry a grade in the course. For exact dates, please consult the Academic Calendar, dal.ca/academics/important_dates.html, or visit the Registrar's Office.

Grades of ILL

Grades of ILL can be granted for medical reasons or on compassionate grounds. If the course is still in session, and it is past the last day to withdraw, the professor for the course can grant a grade of ILL with the appropriate documentation (i.e. a note from an appropriate clinician). If the course is over, you can provide the documentation to the Assistant Dean, Student Affairs for your faculty or to the Journalism Committee on Studies. Don't hesitate to stop by the Registrar's Office for assistance if you have questions concerning ILL grades.

Section 3: Time Away From King's

Courses at Another University

Students in good academic standing following their first year of study can apply to take courses at other universities and have them count toward their degree at King's. There are a number of important steps to complete before taking a course at another school:

- Figure out which university you'd like to attend. It could be a university in Halifax, university in your hometown, a distance education course, or a term abroad.
 - Browse the course calendar and timetable at the university you'd like to attend to find a course to take.
 - Print a Letter of Permission (LOP) from the website or pick one up from the Registrar's Office.
 - Review the eligibility requirements on the form to ensure you are eligible to take courses on LOP, and, if you have any questions, please stop by the Registrar's Office.
 - If a course has been approved for transfer in the past, it will appear on the Transfer Credit Equivalency Table (accessed through Dal Online). If your course is on the table, complete the Letter of Permission and bring it to the King's Registrar's Office for processing.
 - If your course doesn't appear on the table, you will need to provide a copy of the course description and/or syllabus to the appropriate department for consideration. The department head/undergraduate advisor will assess the course and, if appropriate, sign the letter of permission form. You can bring the signed form to the King's Registrar's Office for processing.
 - Apply to be a 'visiting student' at the institution in question. Check the school's website for application deadlines and registration information. Send the institution a copy of your Letter of Permission form.
 - Register for your course(s); check the university website or contact their Registrar's Office to find out how.
 - Once the course is complete, request an official transcript from the institution and have it sent to the King's Registrar's Office. Any grade received in a course taken on LOP at a Canadian institution will be recorded on your record and will count towards your GPA.
- This process can be lengthy and some universities have early application deadlines for visiting students, so make sure you start early to avoid disappointment.

Going on Exchange/ Studying Abroad

Are you interested in studying abroad? Each year, a number of King's students participate in study abroad or exchange programs spanning from the South Pacific to Spain to East Africa. Our students can participate in exchange programs available through our association with Dalhousie University. There are both university wide and departmental exchanges available.

Visit Dalhousie's International Centre (www.dal.ca/campus_life/international-centre.html) for more information and for support in planning your study abroad. For department-specific exchanges, you can contact the appropriate department for guidance.

If you haven't quite found what you're looking for in the exchange offerings through Dal/King's, it is possible to plan your own exchange, by following the steps for Letter of Permission courses outlined above. Essentially, the world is open to you if you're willing to do a little bit of the footwork.

Explore Program

Explore (<http://www.myexplore.ca/en/>) is a government-sponsored program that allows students to attend a five-week French immersion camp. Some streams will earn you a university credit (make sure you check in advance!). The program is offered on various university campuses across Canada. It is available to Canadian citizens or permanent residents in Grade 11 or higher who are attending an educational institution full-time.

A number of King's students participate in the Explore program every year. If this is something you're interested in, try to find someone who can tell you a little bit about the experience.

If you are dreading completing your language courses, or just want to get some coursework out of the way in the summer while having lots of fun, the Explore program could be great for you. Visit the Explore website to find out more.

Things to Note

- **We encourage you to come in for an advising appointment before you embark on your semester or year abroad to ensure your planned coursework fits into your degree.**
- If you take a course at another Canadian institution, you will receive a grade and the course will count towards your GPA.
- If you choose to study at an international institution, you will receive a pass or fail grade. Pass grades will not affect your GPA. Fail grades will carry 0.00 grade points which will negatively affect your GPA.
- While you're selecting your exchange or Letter of Permission courses, be aware of both general and specific requirements for your degree.
- The best way to fit an exchange into your degree is to go in your third year. This may mean doubling up on certain course requirements in your second or fourth year. It's important to plan ahead so you aren't playing catch-up when you return to King's.
- Certain exchange programs have application procedures and early deadlines. Check with the Dalhousie International Centre or the department offering the exchange for specific information.

Taking Time Off

Want to take a year off (or more) to work or travel? Need time for self-discovery? Taking time off is easy. Just make sure you aren't registered in any courses. You wouldn't want to get charged tuition fees for courses you aren't taking!

Coming back isn't difficult either: if and/or when you decide to come back to King's, you will need to reapply and submit a letter outlining what you did during your time away and what you plan to do upon your return to King's. If you are reapplying to the same program, and you have not taken courses at any other colleges or universities, the application fee is waived.

Not sure whether taking time off is the right decision? Come by the Registrar's Office for an advising appointment and we will try to help put things in perspective. University is a different experience for everyone and we are here to help make the process as painless and enjoyable as possible.

Transferring to Another Institution

While most students are able to find a program that fits their interests at King's and Dalhousie, we realize there can be many reasons, personal and academic, for transferring to another institution. You may have found a highly specialized program only offered at a specific school; you may decide you want to move closer to home (or further away). Although we'll miss you here at King's, we'd like to provide you with a few tips to make your transition as easy as possible:

- Check the website of the school you wish to attend for admission deadlines for transfer students.
- Figure out what documentation you need to submit. If you are in first year, some institutions require a high school transcript as well as a university transcript.
- Request documentation from the appropriate sources:
 - Transcripts for Arts and Science students are generated by the Dalhousie Registrar's Office (in the Henry Hicks Building) and Journalism transcripts are generated by the King's Registrar's Office. Regular processing time is 5-7 business days. There is also rush processing available for a fee.
 - Arts/Science students: You can request transcripts through your Dal Online account.
 - Journalism students: Email registrar@uKings.ca or submit a transcript request form to the King's Registrar's Office, search Academic Forms & Transcripts on ukings.ca for further details.
- FYP Students:
 - Current FYP students: Since FYP is a full-year program, official grades will not be generated until April. You can send an email to the FYP Office (fypoffice@ukings.ca) to request a letter that explains FYP and includes your interim grade. Stop by the King's Registrar's Office to fill out a transcript request form and we'll include the letter with your official transcript.
 - Past FYP students: FYP is a unique first-year program that may require some explanation in order for transfer credits to be assessed properly. On the King's website you'll find a letter explaining the nature of the Foundation Year Program that you can forward along to the university you are applying to. If you have trouble receiving transfer credits for FYP, please contact the Registrar's Office for assistance.
- If you decide to leave King's, make sure you aren't registered in any courses so that you don't get charged for them!

Section 4: Frequently Asked Questions & Common Misconceptions

Do I have to switch to Dalhousie if I am not completing a King's program?

You do not have to do a degree in Contemporary Studies, Early Modern Studies, History of Science & Technology, or Journalism to be considered a King's student. You are able to access any of the degree programs offered through the Faculty of Arts and Social Sciences and the Faculty of Science at Dalhousie as a King's student.

I should know what I want to do at the end of my first year, but I don't!

Most students don't know what they want to do following first year. This is normal. Students are encouraged to book an advising appointment to identify areas of interest and to develop a degree plan. Stop by the Registrar's Office any time for assistance.

Once I choose my major, I won't have any room to explore my other interests.

The degree options available at King's/Dalhousie allow you to focus your studies in one specific area or to explore multiple areas of interest. Students are often surprised by how much flexibility exists within degree options. Stop by the King's Registrar's Office to book a degree advising appointment.

Can I change my major once I declare it?

You can change your major at any time during your program. However, if you delay or change too frequently, it may take longer to complete your degree. Students normally declare their major at the end of their second year or the beginning of their third. Thoughtful planning is the key!

How do I declare a major and/or minor?

You can declare your major and/or minor through your Dal Online account under "Web for Students", then "Admissions", then "Declare your Major/Minor". If you are planning to pursue an honours degree, you won't be able to declare this online. You need to fill out an honours application and have it signed by your departmental advisors. It is a good idea to declare a major or minor in the interm so you will be included in the communication that the department(s) send to students and to allow for use of the Degree Audit Recording System (DARS) to track your progress towards degree requirements. Bachelor of Journalism students still need to complete and submit an Honours form to declare a Combined Honours or a Minor and can contact the King's Registrar's Office to do so.

When should I apply for honours?

Departments want to see some coursework in your honours subject(s), so we usually recommend submitting your honours application any time after your second year of study. The set deadline for honours applications is the September add/drop date of the year you intend to graduate. Some departments have specific deadlines for honours applications, so it is a good idea to check with the Registrar's Office or with the appropriate department for guidance.

As long as I pass all my courses, I will graduate?

There are some steps you need to take that go beyond passing your courses, such as checking degree requirements, declaring your major, being in good academic standing, submitting the appropriate paperwork, and of course, applying to graduate!

How do I obtain a confirmation of enrolment?

Some agencies or institutions provide a specific form which requires the Registrar's signature. These include government loan documents such as Schedule 2's, Program Information Forms and CPP forms. Please bring these to the Registrar's Office and we will prepare the documents for you. Most other agencies such as providers of RESP's, bank education loans, lines of credit or external scholarships, will gladly accept the online confirmation of enrolment form, which is available as a pdf through Dal Online that you can print and save as needed.

How do I obtain my official transcript?

If you are a Journalism student your official transcript is generated in the King's Registrar's Office. Journalism students can email registrar@ukings.ca or go to the King's Registrar's Office to fill out a transcript request form.

If you are a Bachelor of Arts or Bachelor of Science student, your transcript is generated by the Dalhousie Registrar's Office. Arts and Science students can request their official transcript through their DalOnline account under 'Web for Students' and then 'Student Records'.

Section 5: Your DalOnline Account

Dal Online is the essential tool you will use as a student that allows you to access many services from the comfort of your own home. Here is a breakdown of common uses of your Dal Online account (under Web for Students):

Admissions	Complete application	If you want to switch to a different faculty, you can apply online here.
	Declare your major	This will take you to a form on the Dal website where you can select your major(s) and minor from a drop-down menu.
Registration	Registration status	Check what day and time you are permitted to register for courses. Check for any instructor overrides granted, for pre-requisites, waiting lists, etc...
	Add/drop courses	Choose courses by recording their CRN numbers (and CRNs for tutorials, if applicable) and putting them into this form. Make sure you have the right term selected and that you have completed the prerequisites for the course.
	Schedule by day/time	View a weekly schedule of your courses.
Student Records	View holds	See if you have any holds on your account which could prevent you from registering for courses.
	Final grades	View your final grades by term.
	Academic record	View your entire academic record as a pdf that you can download
	Official transcripts	Fill out a quick form with the number of transcripts you'd like and where you want them sent. If you're a journalism student, contact the King's Registrar's Office for transcripts.
	Account detail	Check your account balance and see what your tuition and fees are for the semester.
	Confirmation of Enrolment	See details on page 26.
	Apply to Graduate	This quick and efficient form is used to apply to graduate. The deadline to apply for May graduation is December 1.
Canada Tax Forms		View and print your T2202A tax form.
Degree Audit Reporting System (DARS)		See which degree requirements you've met and which ones are still outstanding by running an audit on your degree. Stop by the Registrar's Office if you need help deciphering what your audit says.
Transfer Credit Equivalencies		Check to see if a course you want to take at another institution or a course you've already taken has been previously assessed.
Academic Timetable		Browse which courses are being offered in current/future terms.

Section 6: Resources and Finding Help

There are so many resources available to help you through a variety of situations. University is a big transition and we're here to help.

Registrar's Office

The King's Registrar's Office has an open door policy – we are here to help you through many kinds of difficulties. Sometimes you will meet with someone directly in our office, like one of our academic advisors. We provide degree advising and direction to students who are unsure of their program choices. Depending on the time of year, you can drop in or you can book an appointment in advance. Sometimes we may refer you to one of the other services available, like Dalhousie Health and Wellness, the Bissett Student Success Centre, a departmental advisor, an academic success coach, or one of your professors. If you know you need to speak to someone but aren't sure who that someone should be, drop by and tell us what's on your mind. We are here to ensure your university experience is a good one.

Before an Advising Appointment...

o The Academic Calendar: This is a great place to research degree options and course offerings. Read up on the different departments and see what classes are offered. Patterns will start to emerge – you may find you are interested in 20 history courses, but only two Political Science courses. You may even discover you are interested in many different subjects. That's okay! We can help you choose a degree path that will allow you to explore your interests.

o Self-reflection: The more thought you put into your own academic interests, the easier it will be to help you find a degree that's right for you. Although you may not know the answers to these questions yet, it helps to think about them before you come in for an appointment.

- What are my areas of academic strength?
- What are my areas of academic interest?
- Do these coincide with each other?
- What are my interests outside the classroom?
- What are my career goals at this stage?

o Talk to other students: It's important to talk to other students who are currently studying in the degree programs you are considering. King's students study in an enormous range of programs – ask around to find out who is studying in departments you are curious about. Upper-year students are often more than willing to talk about their experiences in their chosen departments and are often present at departmental information sessions.

Student Health and Wellness Centre

Here in the Registrar's Office, we get it. Sometimes university isn't as straightforward as you think it will be. We all have roadblocks and obstacles that prevent us from getting where we want to go. That's why there are resources in place to help when things aren't going so well.

Dalhousie Student Health and Wellness Centre offers counselling services which can help you cope with the challenges you are facing in university. The staff of professionally trained counsellors are experienced in providing confidential counselling to students from many different backgrounds and cultures.

Counsellors can help you discuss your concerns or examine a situation that is making you feel anxious, depressed, unhappy, or 'stuck'. By talking through your concerns with a counsellor, you may deepen your understanding of what is happening and develop alternate ways of dealing with the situation.

2nd floor, LeMarchant Place

Call (902) 494-2081 to make an appointment or visit

dal.ca/campus_life/health-and-wellness.html

Bissett Student Success Centre

The Bissett Student Success Centre covers career services and advising for students. It exists to help you move forward in your educational and career planning. Visit them to find ideas on what you can do with your major, for information on advanced studies, or just to browse the extensive library. The centre is staffed by a full-time career librarian who is there to answer your questions and help you navigate through the resources at your fingertips.

You can book an appointment with a career counsellor, take a test to see where your interests lie, or just drop by and look through the information on your own. A well-stocked and continually expanding inventory of print and electronic resources is available to provide you with information that is relevant and up-to-date.

The Bissett Student Success Centre offers a wide-range of free workshops to help students develop problem solving, exam writing, critical reading and a variety of other skills. Visit the Student Services website (https://www.dal.ca/campus_life/academic-support/study-skills-and-tutoring/workshops.html) for information about upcoming workshops.

4th Floor, Dalhousie Student Union Building, behind the large glass doors

Open Monday - Friday, 8:30am - 4:30pm

Academic Support

Students at King's have access to personal coaching and tutoring through Dalhousie's Studying for Success Program Centre. Students can meet with a Study Skills Coach by appointment or during scheduled drop-in times. The coaches are Masters and PhD students who bring expertise in a wide range of subject areas. Coaching is free, confidential, and will be tailored to individual student needs. It can also include help in understanding course materials and assist in enhancing skills, study habits and time management. For more information, please visit: www.dal.ca/campus_life/academic-support/study-skills-and-tutoring.

Departmental Advisors

Each department has at least one undergraduate advisor who specializes in that department's course offerings and degree requirements. You can find a list of all Arts and Social Sciences advisors at fass.dal.ca and a list of all Science advisors at science.dal.ca.

We encourage you to participate in advising events at King's and Dalhousie and to meet with advisors in departments of interest. The Dalhousie Program Fair takes place in the Winter semester each year and provides you with an opportunity to meet with professors from every department who can answer your questions. In February, King's hosts an Advising Luncheon that will allow you to chat informally about programs and courses with representatives from each department.

We strongly encourage you to make an appointment to discuss your degree options! Stop by the Registrar's Office any time to schedule a degree consultation. If you are pursuing an honours degree, you will eventually need to meet with the honours coordinator of the department(s) that interests you. We can help you identify who you need to contact and by when.

Academic Calendars

The King's Academic Calendar is accessible on the King's website at www.ukings.ca, under Current Students. It contains similar information to the Dalhousie calendar, except it is limited to King's programs. It also includes important information that governs the relationship between the student and the university, such as policies on code of conduct, discrimination, accessibility, academic discipline and appeal procedures.

Dalhousie's Academic Calendar is available online at <http://academiccalendar.dal.ca>. Here you can find degree requirements, university regulations, course descriptions, and more for the Faculty of Arts and Social Sciences and the Faculty of Science. Make sure to click on the 'PDF Versions' tab to find the academic calendar from the year you began your studies.

DARS (Degree Audit Reporting System)

DARS is a handy little tool you can access through your Dal Online account. Once you have declared a major you can run reports and track the progress of your degree. You can even enter courses you are thinking of taking, to see how they will affect your degree. This is an excellent tool for double checking before registering.

If you are planning on doing an honours degree, you won't be able to run a DARS report until you have been admitted and your academic record has been updated (a great incentive for you to get your form approved early in your degree!). Please see the Registrar's Office for assistance with planning your degree and tracking your requirements.

The King's Website

For more information on current student services, you can check out the King's website at <http://ukings.ca/current-students/>. Here you can find information on academic advising, registration, academic trouble, and electronic versions of the most commonly used academic forms and transcripts.

Section 7: Forms & Worksheets

Sometimes it's hard to keep track of all the paperwork you might need for your degree. Below is a list of common forms for current students. Don't worry; if you come into the office, we can direct you to the appropriate piece of paperwork. Just know if you experience a problem, there might be a form that can help you fix it!

Application for a Waiver of an Academic Regulation:

This form can be used to request a retroactive withdrawal from a course, a retroactive grade of ILL, or to request a waiver of a degree requirement. You'll often need to submit supplementary documentation with your request, such as a medical note. Once complete, the form can be forwarded to the Assistant Dean of Arts, the Assistant Dean of Science or to the Journalism Committee on Studies for review.

Course add/drop form:

You can use this form when you need special permission to register for a course following the normal registration period, if the course is wait-listed, if the professor is overriding a prerequisite, or if you are switching to a different section of a full-year course.

Honours Application:

This form is required for all students who intend to complete an honours degree. List your previous, current, and planned coursework chronologically, have your departmental honours advisor(s) sign off on the form, and return it to the Registrar's Office for processing.

Intent to Graduate Form:

The most efficient way to apply to graduate is through your Dal Online account. There are also paper copies available in the Registrar's Office if you need to apply after the deadline has passed. A \$50 fee is charged to those who do not apply by the deadline. For a list of deadlines, please consult the Registrar's Office or the Academic Calendar.

Letter of Permission:

You can fill this out when you want to take courses at another institution. To check if courses have been previously assessed, you can visit the Transfer Credit Equivalency Table through your Dal Online account.

Reassessment of a Final Grade:

If you feel that you received an unfair grade on a final exam or assignment, you can submit this form to have the work reassessed. There is a \$50 fee, which will be refunded to you if the grade is adjusted.

Request to Exceed the Normal Workload:

The maximum workload for Arts and Science students is 15 credit hours per term (i.e. 5 courses). If you have a term GPA of 3.0 or higher in the previous term, you can contact the Registrar's Office and we will increase your maximum credit hours to 18 per term. If your GPA is below 3.0, you will need to fill out this form and submit it to your faculty for approval.

Transcript Request Form:

The best way to request transcripts for Arts and Science students is through your Dal Online account. These transcripts are processed at the Dal Registrar's Office in the Henry Hicks Building. For Journalism transcripts, please email the King's Registrar's Office for guidance or submit the transcript request form under "Academic Forms & Transcripts" section of ukings.ca

Worksheets:

The worksheets on the following pages have been designed to help you plan your degree. They do not replace the Academic Calendar or your Degree Audit and should be used in consultation with a degree advisor.

On the worksheets courses are denoted in this format: XXXX.00 > The XXXX represents the course code for the course you will take (i.e. ENGL 1000 fills the place of ENGL XXXX). The .00 represents the credit hours for the course. Courses ending in .03 are three credit hour (single semester courses) and courses ending in .06 are six credit hour (full year courses).

Some examples:

Elective XXXX.03 > A three credit hour elective course at any level (1000 to 4000)

EMSP 2XXX.03 > A three credit hour Early Modern Studies course that is at the 2000 level or higher. The 2XXX denotes the level.

CTMP 3XXX.06 > A six credit hour Contemporary Studies course that is at the 3000 level or higher.

HSTC 4XXX.03 > A three credit hour History of Science and Technology course that is at the 4000 level.

Note: When a course denoted with an XXX has a level code at the front (2XXX) the course can always be taken at that level or higher. So any course that is denoted as 2XXX can be a 2000, 3000 or 4000 level course.

BA with CSP as the Primary Subject in a Combined Honours

General Degree Requirements:

KING (FYP)	1000.24	<input type="checkbox"/>	
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR			
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Humanities	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Social Sciences	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Writing Req.*	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>

CSP minimum requirements:

CTMP 2001.03	<input type="checkbox"/>	and 2002.03	<input type="checkbox"/>
CTMP 3001.03	<input type="checkbox"/>	and 3002.03	<input type="checkbox"/>
CTMP 4001.03	<input type="checkbox"/>	and 4002.03	<input type="checkbox"/>
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP 0455.00 (thesis course; no credit weight)	<input type="checkbox"/>		

2nd honours subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

Required courses to complete 120 credit hour degree:

Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>

* The Writing Requirement may also be used to satisfy the humanities or social sciences requirement.

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.

Students may take a minimum of 66 and a maximum of 84 credit hours in the two honours subjects with no grades lower than C.

BA with CSP as the Secondary Subject in a Combined Honours

General Degree Requirements:

KING (FYP)	1000.24	<input type="checkbox"/>	
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR			
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Humanities	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Social Sciences	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Writing Req.*	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>

2nd honours subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

CSP minimum requirements:

CTMP 2001.03	<input type="checkbox"/>	and 2002.03	<input type="checkbox"/>
CTMP 3001.03	<input type="checkbox"/>	and 3002.03	<input type="checkbox"/>
CTMP 4001.03	<input type="checkbox"/>	and 4002.03	<input type="checkbox"/>
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		
CTMP XXXX.03	<input type="checkbox"/>		

Required courses to complete 120 credit hour degree:

Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>

* The Writing Requirement may also be used to satisfy the humanities or social sciences requirement.

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.

Students may take a minimum of 66 and a maximum of 84 credit hours in the two honours subjects with no grades lower than C.

BA with EMSP as the Primary Subject in a Combined Honours

General Degree Requirements:

KING (FYP)	1000.24	<input type="checkbox"/>	
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.

Students may take a minimum of 54 and a maximum of 66 credit hours in the honours subject with no grades lower than C.

BSc Single Honours

General Degree Requirements:

KING (FYP)	1000.18	<input type="checkbox"/>	
Math	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR			
Math	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Humanities	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Social Sciences	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Writing Req.*	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>

Primary honours subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03 <input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03 <input type="checkbox"/>

Required courses to complete 120 credit hour degree:

Elective XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03 <input type="checkbox"/>

* The Writing Requirement may also be used to satisfy the humanities or social sciences requirement.

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.

Students may take a minimum of 54 and a maximum of 66 credit hours in the honours subject with no grades lower than C.

BA Double Major

General Degree Requirements:

KING (FYP)	1000.24	<input type="checkbox"/>	
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR			
Language	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Humanities	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Social Sciences	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Writing Req.*	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Elective	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>

First major subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

Second major subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

Distribution Requirement:

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
---------	--------------------------	-------------	--------------------------

Required courses to complete 120 credit hour degree:

Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>

* The Writing Requirement may also be used to satisfy the humanities or social sciences requirement.

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.

Students may take a minimum of 60 and a maximum of 84 credit hours in the two major subjects.

BSc Double Major

General Degree Requirements:

KING (FYP)	1000.18	<input type="checkbox"/>	
Math	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
OR			
Math	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Science	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Humanities	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Social Sciences	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>
Writing Req.*	XXXX.03	<input type="checkbox"/>	and XXXX.03 <input type="checkbox"/>

Primary major subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

Secondary major subject minimum requirements:**

2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>
3XXX.03	<input type="checkbox"/>	and 3XXX.03	<input type="checkbox"/>

Required courses to complete 120 credit hour degree:

Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective XXXX.03	<input type="checkbox"/>	and XXXX.03	<input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>
Elective 2XXX.03	<input type="checkbox"/>	and 2XXX.03	<input type="checkbox"/>

* The Writing Requirement may also be used to satisfy the humanities or social sciences requirement.

** Students MUST visit an advisor or consult the university calendar for specific requirements.

Students may take a maximum of 48 credit hours at the 1000-level.
